

QUALIFYING COURSES FOR THE
DEAN'S MULTIDISCIPLINARY AND ERGRADUATE RESEARCH LIST

Members of the Academic Committee are invited to consider the list of courses that qualify for

In exceptional circumstances, if students have taken a science research course *not* already on the approved list, and wish for this course to be counted toward the Dean's Multidisciplinary Undergraduate Research List, they must apply. A qualifying course involves a science research project as its primary focus, culminating in a substantive written report. Ineligible courses include: reading courses; BASC 396 and BASC 449; and courses offered by the Faculty of Arts. For information on how to apply, students should contact the Office for Undergraduate Research in Science at least 4 months prior to graduation (e.g., February 1, for June graduation; July 1, for November graduation; August 1, for February graduation).

What is the list of approved research-based courses? How was it created and revised?

In 2005, members of the academic committee were asked to propose courses from their units which should be on this list. All courses involve a significant research component and a final written report or thesis. Reading courses were excluded. The list was reviewed and approved at the Academic Committee meeting of December 13, 2005. Since 2005, courses have been added by OURS in consultation with the Associate Dean (Academic), reflecting new course offerings (including three such courses added in 2012-13). The list was also reviewed with the Academic Committee in September 2009, September 2011, September 2012, September 2013, and September 2014. The current list is given below.

Additions or modifications?

For consideration:

Are there any other courses that should be added to this list, as a result of courses already created, or course changes in process, or courses recently modified?

Or proposed deletions?

Changes from 2014/2015, for reference

CHEM 490

490 was reading-or-research, and is now reading-only, but remains on the list for students who took it as research in prior years.)

Course	Title	Cr	Comment	Research or reading?
AGRI 519	Sustainable Development Plans	6	Added 2010/01/15. (Approved course for B.Sc. Envr.)	
ANAT 396	Undergraduate Research Project	3		
ANAT 432	Honours Research Project	9	Span course	
ATOC 396	Undergraduate Research Project	3
