

What is Latent Tuberculosis?

Infection (LTBI)?

Tuberculosis (TB) is a disease caused by a bacteria called *Mycobacte*

What to do if missed a dose?

You should try not to miss any doses.

- If you forget to take a dose at the right time, take it as soon as you remember.
- If it is nearly time for your next dose, skip the missed dose and take the next dose as usual. Do not take a double dose to make up for the forgotten tablet.
- If you forget to take any doses let the doctor or pharmacist know the next time you are at the TB Clinic.
